LINE COUPLER
MDRC

General information

SKU	C4-KNX-LC
Catalog description	Line Coupler, MDRC
Long description	The KNX bus Line Coupler is a modular installation device with a module width of 2 space units. It is used as a line or area coupler or as a repeater. As a line coupler, this device connects a line with a main line; as an area coupler, it connects a main line with an area line, providing electrical isolation. In connection with ETS4, the main groups 14 - 31 can be filtered.
